EXPRESSION OF INTEREST

18th February, 2026
Dear Sir,

TO WHOM IT MAY CONCERN
RE: EXPRESSION OF INTEREST

We are simply desirous to enter into mutual business relationship with your highly reputable intervention legacy, looking at numerous developmental upheavals and of course, challenges across the Niger Delta Region especially in your State. Our company - **DE TOOLS WORLDWIDE LIMITED** is a thorough innovative engineering firm with guaranteed competence in Civil, Mechanical, Electrical and Agricultural Services. Our values of integrity, doggedness, quality and timely delivery, forthrightness and relationship with clients have endeared us to high profile company's parastatals and intervention agencies and therefore culminated in our acceptance wherever we are called. We sincerely pledge our total commitment and co-operation to your firm/leadership as we look forward to a strong strategic partnership towards a grassroots development of our region and Nigeria at large. Attached herewith are our eligibility documents profile showing readiness and willingness to execute jobs within and outside the region as you may wish to peruse at your leisure.
We count so much on your perceived assurances.

Thank you. Yours faithfully,

TIM LARRY
CEO/MD DE. TOOLS WORLDWIDE LIMITED

INTRODUCTION

It is our pleasure therefore to introduce our Company **DE. TOOLS WORLDWIDE LIMITED** A company strategically positioned to fit into local content aspirations as well as optimum capacity utilization of highly experienced professionals. We sincerely hope you would soon find us a dependable partner.

BRIEF HISTORY

Our Company **DE. TOOLS WORLDWIDE LIMITED** is a multinational professional outfit with specialized consideration in Electrical/Electronic Technology, Civil Engineering Construction, Road Rehabilitation of multi-lane Asphalt Roads, Runways and Apron, Roads, Burnt Brick Pavement, Rigid Pavement and Stabilized Base Road for light and Heavy Traffic.

Although **DE. TOOLS WORLDWIDE LIMITED** just came on board in January this year (2026), she relies heavily on her engineers and other professionals whose track records in types of jobs mentioned above speaks for itself, (find attached project completion and urgent series displayed in subsequent pages in which our engineers directly or indirectly supervised).

These engineers are currently on the payroll of **DE TOOLS WORLDWIDE LIMITED.**

HOUSING SCHEME

Housing Scheme of V-Sizes such as; multi-storey, commercial, residential and buildings for low and high income citizens, Construction and Electrification.

RURAL & URAN ELECTRIFICATION PROJECTS

We undertake Transformer Installation, Rural and Urban Electricity Projects with consequent approvals of the Federal Ministry of Mines and Power.

CONCRETE STRUCTURES

Design, Costing and Construction of Dams, Mini-Dams, Bridges, Retaining Wall, Canalization and Drainage System.

WATER SCHEME

Design, Costing and Construction of Water Supply Treatment System, Borehole, Drilling, Urban Water Distribution, Irrigation, Pipeline, Reservoir and Sewage System.

OUR FIRM

Our firm comprises highly experienced and well qualified staff, construction and project managers in various fields of engineering, all with the capabilities and resources to take a job from pre-construction stage to completion. These staff in conjunction with our field engineers

and our team of over twenty three employees and highly trained professionals are well certified to deliver the finest product.
Our commitment to high quality service therefore is no doubt as our team leaves no stone unturned to guarantee international best practices and competence.

CONSULTANCY SERVICES

We offer Electrical, Building and Civil Engineering Consultancy Services such as: Reconnaissance Surveys, Project identification, preliminary investigations, field Appraisals, Site Location Studies, Resource Inventories, Data Acquisition and Processing Geological Surveys. Transportation Studies, Highways and Traffic Development, Waterways (Jetty and Harbors) Rural and Urban Roads Development (Survey/Design Casting and Construction), Soil Investigation and Disposal, Erosion Control, Land Reclamation, Urban Renewal and Development.

PROJECT AND EQUIPMENT

DE. TOOLS WORLDWIDE LIMITED has gone through professional training of Staff Preparation to launch into the depth of Electrical Engineering/Civil and Building Engineering Projects. Apart from our professional strength and vast human resources at our disposal, our targeted achievements have been variously aided by our multimillion modern equipment such as Bulldozers, Pay-Loaders, Graders, Rollers, Excavators, Computer Facilities equipped with different engineering software and many more (See details of plants and equipment on display).

HUMAN RESOURCES

W have in our employ highly dedicated, qualified, experienced and hardworking professionals who are corporate members of their various professional bodies both locally and internationally as stated in the attached profile for your kind perusal.

CLIENTS

Our targeted clients are Federal Government Parastatals, Government Agencies, Intervention Agencies, State Governments, International Agencies, Multi-national firms, Private Firms, Individuals and You.

We faithfully recommend our Company, **DE. TOOLS WORLDWIDE LIMITED** for the pending projects.

Yours faithfully,

GENERAL INTRODUCTION

DE. TOOLS WORLDWIDE LIMITED was incorporated under the Nigerian Companies and Allied Matter Act of 1990. This company established by a visionary and enterprising young man with the aim of promoting local content to the maximum in the oil and gas industry.

DE. TOOLS WORLDWIDE LIMITED specializes in construction in general construction and supply services to oil and gas industry, Banks, Hotels, Construction Firms, Government Agencies, etc.

We believe in good name, our sterling quality of services and prompt delivery makes us to be a sort after company.

It is our belief that safety and quality shall not be compromised in the drive to provide satisfactory and economically viable services to our numerous clients.
We faithfully recommend our Company, **DE. TOOLS WORLDWIDE LIMITED** for the pending projects.

Yours faithfully,

Our People

At TEAMS, we value our people, their commitment and skills, which keeps us at a competitive edge. We are led by a team of dedicated, seasoned and experienced industry professionals committed to providing international service standards in Nigeria.

We are equipped with a workforce of safety conscious, energetic, dynamic, result oriented and up to date professionals. At TEAMS, our people are our strength. Our team of highly skilled personnel are the key to our continuous success in project execution. That's why we invest so much time making sure they are well looked after, including extensive health screening, regular safety training in the format they can best relate to, and an ongoing career development programme.

The management team of TEAMS delivers quality decisions on a timely basis and through these decisions, great milestones have been achieved thereby raising the bar for our numerous competitors. Our people are dedicated, skilled and well trained. All our employees understand where the company is headed and share a very fundamental principle of doing the job right the first time.

OUR **VISION**

To become a formidable local and international player in the Engineering Services & Procurement sector, mostly utilizing resources & talent drawn from within Nigeria, ultimately dominating the African engineering market.

OUR **MISSION**

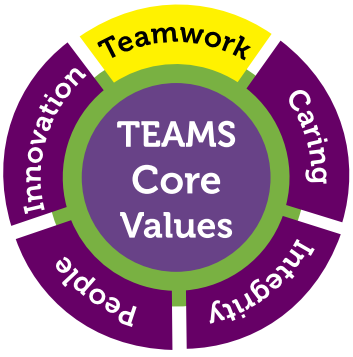
- We are committed to assisting our customers with their requirements by providing them with a comprehensive & economically engineered solution.
- We are committed to providing a safe and pleasant work environment for personnel development & advancement.
- We are committed to a responsibility towards improving our social & physical environment by adopting eco-friendly processes and development programmes for our host communities.

OUR **CULTURE**

Founded on the bedrock of professionalism, the work team at TEAMS believes that genius is born by adapting imagination & flexible work processes that encourage creativity into a functional operations system. Every project is approached based on its peculiar qualities and the ultimate solution is allowed to evolve naturally.

To us every new opportunity to deliver service is heartily welcomed and viewed as an opportunity for a new learning experience.

OUR CORE VALUES



Our Services

Technique Engineering and Management Systems (TEAMS), provides a full range of high performance & cost effective engineering solutions that cut across the Oil & Gas, Construction, Engineering and maintenance services. We specialize in Engineering, Procurement & Construction services.

This brochure will center but not limited to the following services: Protective Coating, Blasting and Surface Preparation, Industrial Insulation, Fire Proofing, Access Solutions (Scaffolding) and Rope Access Management, Equipment Rental and Leasing, Procurement, Manpower supply, Onshore and Offshore support services.

COMPOSITE REPAIR SOLUTIONS

Composites easy to repair we fix and repair broken, leak and corrasion repair composite pipe repair wrap- pipeline protection and refurbishment systems for crack like defectss in pipeline.

We Specializes in delivering engineered composite wrap and cold bonding systems for repair and new build situations, which vary in size and complexity.

WE ADDRESS SUCH ISSUES AS:

- External and internal corrosion
- Live leaks and through-wall defects
- Deterioration of large metal structures such as decks, tanks, roffs and floors
- Damage to complex geometries in vessels and pipework, including bends, tees and flanges
- Weakening of equipment foundations to support and maintain precise alignment under

SCAFFOLDING

We design and implement solutions for working on projects where heights or access is a requirement. We deliver these solutions through the use of a number of scaffolding options designed to carry personnel or materials, or both for access, hanging, static etc. We erect various types of scaffolding including:

- **Complex Scaffold**
- **Conventional / Cantilever**
- **Suspended Scaffold**
- **Overboard / Slung Scaffold**
- **Design Scaffold / special purpose**

We lease access scaffolding and supply according to the customer's specifications and needs. We provide highly trained personnel: qualified erectors, supervisors & inspectors that are qualified to work onshore and offshore locations. Our team of engineers ensure proper erection of scaffold by adhering strictly to safety principles after which inspection is carried out. We establish sites where we are called upon.

TRAINING

Our Training activity is tailored, knowledgeable and practical solutions required for the oil and gas industry. Our Training division is unique in providing customized courses/programs tailored to each client's specific needs. We provide technical training and competency programs for professionals with varying levels of experience.

we provide:

ROPE ACCESS:

- IRATA Rope Access Training (Level 1/2/3) Upgrades, Revalidations and Refreshers
- Work at Height Awareness
- Rescue from Height

SCAFFOLDING TRAINING

- Level 1 Scaffolders
- Level 2 Scaffolders
- Advanced Scaffolders

PAINTING & BLASTING

- Basic and Advance Painting Technologies
- High Pressure Blasting

NDT TRAINING

- Visual Testing
- Magnetic Particle Testing
- Dye Penetrate Testing
- Radiographic Testing
- Radiographic Film Interpretation
- Long Range Ultrasonic Testing
- Eddy Current Testing

DE TOOLS WORLDWIDE LIMITED.

PROCUREMENT **AND LEASING**

PRO**CUREMENT**

Our clients choose us because our procurement service helps them drive down costs whilst optimizing output. Our seamless procurement solutions is a key way to cut costs, add value and improve the efficiency of your business, without additional outlay. With our experience in procurement sourcing and management, & strong, established strategic partnerships with key partners and suppliers within the relevant industry area.

This ensures that our clients meet their production schedules while maintaining cost effective processes. We help our clients easily achieve their project goals by delivering their requested products/services with less time and less money.

EQUIPMENT **RENTAL / LEASING**

TEAMS delivers reliability to clients with such equipment needs as Access Solution facilities i.e. Scaffolding Materials (Scaffold Boards, Tubes, Fittings, System Scaffold etc) Rope Access Materials and Kits, Compressors, Blasting Pots, Compressors, Offshore and Standard Container Baskets, equipment, etc. We also engage highly skilled personnel to administer expert equipment handling.

INSULATION **AND FIREPROOFING**

INDUSTRIAL **INSULATION**

When we install Thermal or acoustic insulation on piping and mechanical systems, we help our clients achieve at least one of the following:

- Energy Savings
- Personnel Protection Installation
- Corrosion Control
- Condensation Control
- Noise Reduction and
- Reduction of greenhouse gas emissions.

PASSIVE **FIRE-PROOFING**

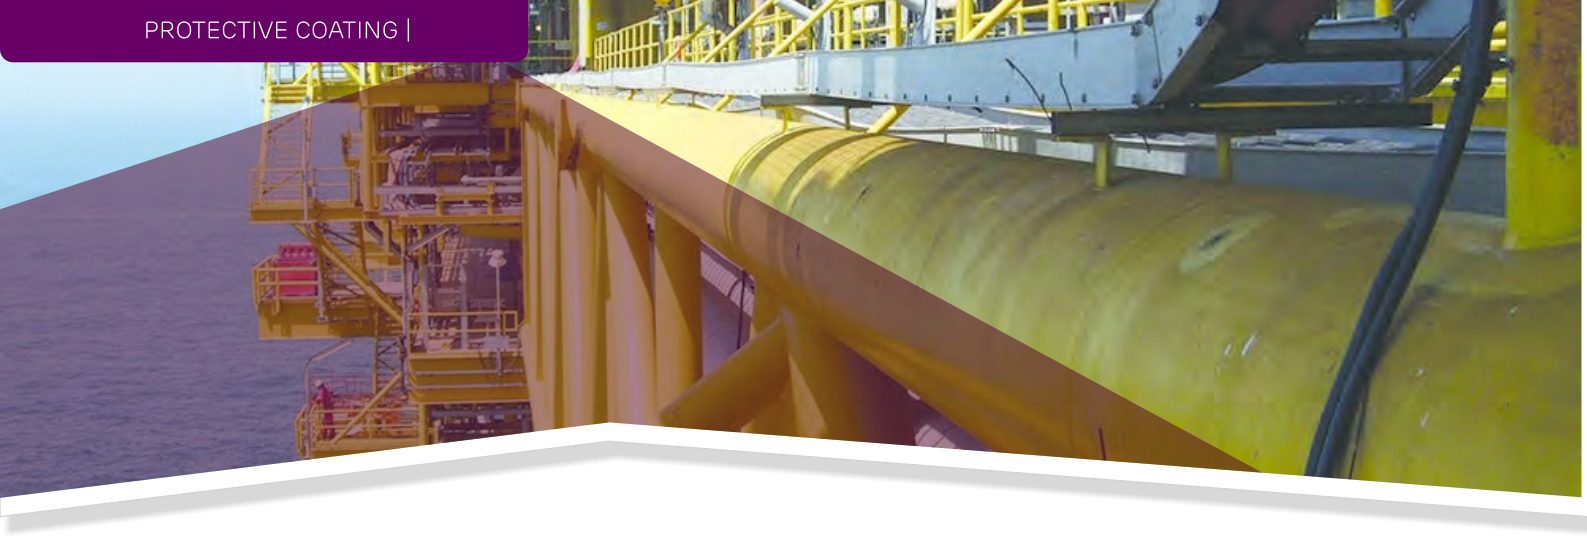
Our clients trust our expertise in Zoning systems (to confine any outbreak of fire that may occur), & Structural protection systems (to delay the onset of concrete rupture or steel weakening. We implement:

- Protection of steel structures using intumescent paint for cellulosic fire
- Protection of concrete & steel structures using cementitious wet shot-crete for both hydrocarbon and cellulosic fire
- Protection of all kinds of penetrations and joints using fire stop intumescent sealant for fire zone

WE PROVIDE ALL TYPES OF INSULATION SOLUTIONS:

- Thermal
- Refrigerating
- Cryogenic
- Anti-Condensation
- Underwater high performance
- Phonic
- Personal Protection Installation

DE TOOLS WORLDWIDE LIMITED.



PROTECTIVE COATING

Surfaces ranging from Marine FPSO, Vessels, Pipes, structures, building mechanical parts to mention but a few, constantly needs to be protected from the corrosive effects of water & other atmospheric gases so that they don't rust and wear apart.

Our clients expect this aspect of our service delivery to see to the increase in service life expectancy of their equipment or assets. We deliver specific Coating Solutions to clients drawn from a number of industries, ranging from marine to oil servicing industries.

WE DELIVER

- Anti-corrosion coatings
- Industrial paint for steel and concrete
- Metal spraying
- Watertight-ness (liquid, bye-laminates, leak detection, etc.)
- Special coatings (non-slip, anti-graffiti, anti-abrasion, etc.)
- Flame-retardant coatings
- Strip coatings
- Confined Space

BLASTING & SURFACE PREPARATION

Prior to surface coating, we engage in various blasting operations on metals and concrete to prepare them ready for painting, bonding and other coating application. This process is vital for preparing and reinforcing substrates ensure adequate removal of rust, scale, particles or paint thus obtaining an optimum adhesion profile for the coating. We achieve this through various blasting techniques:

- Grit / Abrasive Blasting
- Hydro Blasting
- Other blasting solutions
